The Association For The Extractive Industries Transparency Initiative (eiti)

#### Accounting principles

The financial statements have been prepared in accordance with the Norwegian Accounting Act and generally accepted accounting principles for small entities.

#### Foreign currency

The accounts of the EITI Secretariat are kept in NOK.

Contributions to the secretariat are recognised as income using the exchange rate to NOK realised in the bank upon reception of payment. Expenses in foreign currency are converted to NOK using the exchange rate at the date of expense. Balances are converted with the valid rate at the statement date. Income and expenses are converted at the average exchange rate for the year.

#### Revenues

Funds received are recognised as revenue in the period for which the funds are given. Project specific grants with a repayment clause are recognised as income when the organisation has a legal right to the funds, i.e., when activities are implemented and expenses incurred related to the project.

Accrued revenue recognised as such, but not yet received in the bank—is included in the balance sheet as receivables under current assets. Deferred revenue – received in the bank, but not yet recognised as such – is included in the balance sheet as other short-term liabilities.

#### Tax

In accordance with Norwegian Tax Law, the EITI Secretariat is not considered taxable..

#### Classification and valuation of fixed assets

Fixed assets are comprised of assets intended for long term ownership and use. Fixed assets are valued at cost, recorded in the balance sheet and depreciated over the estimated useful economic life. Fixed assets are written down to recoverable amounts when decreases in value are expected to be permanent. The recoverable amount is the grater of the net selling price and value in use. Impairment losses recognised are reversed when the basis for the impairment loss is no longer evident.

The exception to this rule is fixed assets belonging to specific, donor-funded projects with a limited project period. These assets are expensed at the time of purchase. Current assets and liabilities are comprised of items receivable/due within one year and valued at cost.

Receivables from customers and other receivables are entered at par value after deducting a provision for expected losses. The provision for losses is made on the basis of an individual assessment of the respective receivables.

#### **Pension liabilities**

The EITI Secretariat has no unfunded pension obligations. Funded pension liabilities are not recognised in the balance sheet. The premium paid is regarded as pension cost for the period concerned and classified as wage cost in the income and expenditure statement.

#### Note 1 - Income recognised 2021

| IMPLEM   | RENTING COUNTRIES       | and the part of an    |
