2016 EITI Annual Accounts and Q1 2017 forecast

Summary:

The EITI Finance Committee recommends that the Board approves the 2016 accounts of the EITI International Management which are in line with the 2016 audited figures.

2016 was another challenging financial year for the EITI. The uncertain funding situation affected delivery of planned activities. However, revenues improved following the consultations on the funding review.

Nonetheless, the EITI received USD 0.3m more than it spent in 2016. Revenues of USD 5.6m were received. Compared to 2015, funding (including for project-specific activities) from governments increased from USD 2.7m to USD 3.0m while revenues from companies increased from USD 1.7m to USD 2.6m. The number of supporters increased to 67 from 50 in 2015. Expenditure was significantly lower than planned largely due to the move to a more efficient validation model. Total expenditure reached USD 5.3m (USD 2.4m less than originally budgeted).

Supporting documentation (available via www.eiti.org/internal/specific link)

Has the EITI competence for any proposed actions been considered?

The EITI Board is mandated in the articles to assess the accounts of the EITI International Management.

Financial implications of any actions

There are no financial implications of this request for the EITI International Management, other than the administrative processing. There are no costs expected outside the budget in the agreed workplan.

EITI ANNUAL ACCOUNTS 2016

1 2016 EITI Annual Accounts

The EITI annual accounts for 2016 were received from the EITI's auditors, HCA Revisjon & Rådgivning AS, on 7 February 2017. This paper presents the Board with a set of accounts for the period 1 January to 31 December 2016 and is submitted to the Board alongside the audited accounts submitted through the Audit Committee.

The EITI received USD 0.3 m more than it spent in 2016. Its **revenue** in 2016 was USD 5.6 m and its **expenditure** was USD 5.3m. This was against an approved **budget** of USD 7.7m which included project specific activities such as the global conference and validation. The expenditure of USD 5.3m relates to lower than foreseen expenditure and cost reductions on most cost lines including Implementation, board meetings and communication with related translation costs; and significantly lower expenditure on outreach, training and validations. It includes USD 1.4m in project-specific expenditure. The lower than budgeted revenue arose partly from lower funding from governments than planned. Contributions from supporting companies were in line with the budget. The shortfall confirmed risks communicated earlier in the year.

As at 1 January 2016, the bank account balance was USD 1.2m and at 31 December 2016 the balance was USD 2.1m. These figures include the reserve¹. The bank balance has increased due to significant receipts of project specific funding towards the end of the year for activities in 2017. The bank account is held in Norwegian kroner but the increased balance is only modestly affected due to a stable value of the kroner against the US dollar. The reserve fund of NOK 4.8 million, remains untouched.

The financial status of the EITI International Secretariat for 2016 is briefly summarised in table 1 below.

¹ The reserve was agreed in 2016 to be held at NOK 4.8m. With the closing exchange rate used for the 2016 figures, this equates to USD 559,000.

All figures in USD thousands

Main figures	Actual-2016	Budget 2016	Actual 2015
average rate NOK/USD	8,40	8,50	8,07
Revenue	5 557	7 679	4 406

Bank balance at end of period (including reserve)	2 056	1 000	1 183
Reserve at end of period	559	350	338

^{*}Equity is the net of assets and liabilities and represents the amount that is carried over to the next period.

2 2016 Revenue

The EITI received USD 5.6m in 2016 compared to USD 4.4m in 2015. This was significantly lower than planned. There was shortfall primarily from supporting countries where support was lower than planned in 2016, while contributions from supporting companies was as budgeted and up from 2015. The Secretariat was successful in broadening its funding base with number of supporters increasing to 67 from 50 in 2015. The increase was mainly with companies who appear to have responded positively to the funding review consultations.

Excluding project-specific funding - revenue was far below the approved budget of USD 5.2m. As agreed by the Board, a funding review was carried out in 2016 with one aim to ensure funding arrangements that increase reliable income. While both **implementing countries** and **supporting oil, gas and mining companies** agreed to pay a minimum membership fee, **supporting countries** were unable to agree to a required contribution. Towards the end of the year significant project specific funding was received for training and capacity building, beneficial ownership discslosure support and commodity trading transparency work.

Table 2 breaks down the contributions by type of stakeholder.

Table 2: Revenue 2016 broken down by constituency plus project specific funding

Table 3 below sets out the revenue of the EITI International Secretariat in the period January–December 2016. In total, 67 organisations contributed to the EITI International Management in 2016 compared to 50 in 2015. The second column of table 3 shows the amount received and the currency it was received in. The third column shows the actual amount received in NOK. The fourth column shows the amount received based on the average exchange rate for 2016 (1USD = 8.4 NOK)² for the purpose of presenting the figures in USD.

Total revenue ytd Q4 2016 including project-specific funding

Funding of USD 0.5m for 2017 was received in 2016 from the following entities:

- GBP 143,500 from DFID for Q1 2017
- EUR 281,250 from the European Commission for Q1-Q3 2017
- USD 25,000 from Timor Leste (first implementing country providing funding)
- USD 20,000 from Kosmos Energy
- USD 15,000 from KFW Bankengruppe

2.1 2016 Project-specific funding

As shown above, a number of parties chose to provide project-specific funding to a host of events and activities in the 2016 workplan. In 2016, project-specific funding was granted for the following projects:

- USD 687,000 from a number of donors as specified in table 5 towards the Global Conference in Lima, Peru.
- GBP 500,000 from DFID towards xxtractives beneficial ownership disclosure activities of which GBP 255,000 was recognized as revenue for activities in 2016.
- EUR 212,500 from the Government of Belgium towards training activities in Francophone Africa including artisanal small scale mining (ASM).
- USD 130,000 from the World Bank Extractives Global Programmatic Support (EGPS) Trust Fund towards 13 Implementing country validations.

In addition, the following was received for activities planned to take place in 2017:

- GBP 245,000 from DFID towards extractives beneficial ownership disclosure activities.
- CHF 187,500 from SECO towards commodity trading transparency pilots. In addition, CHF 62,500 has been granted but not received towards commodity trading transparency.
- GBP 48,000 from DFID towards extractives commodity trading transparency pilots.
- USD 20,000 from the World Bank Extractives Global Programmatic Support (EGPS) Trust Fund towards 2 further implementing country validations. In addition, USD 170,00 has been granted but not received towards validation.
- USD 50,000 from the World Bank Extractives Global Programmatic Support (EGPS) Trust Fund towards the EITI mainstreaming agenda. In addition, USD 100,000 has been granted but not received towards mainstreaming.

Table 4: Project-specific funding 2016

Total revenue for specific projects	11 479 585	1 366 617		

3 2016 Expenditure

Total expenditure for 2016 was USD 5.3m. This was USD 2.4m below the budget. Most cost lines were lower than budget due to funding restrictionsRegular implementation activities were pushed out due additional beneficial ownership requirements and validations. As before, approximately half of the total budgeted expenditure went to **salaries**. Planned recruitment was delayed. Please note that all the cost functions have an allocated share of salaries.

Travel and accommodation costs were higher than in 2015 but significantly lower than budget partly due to lower than planned Global Conference costs. **Translation and interpretation** costs were also lower than budget as translation needs were carefully reviewed with Spanish no longer provided to Board members and more limited Russian. Delays in project specific funding meant that spending on **project consultants** was lower than planned.

- **Implementation costs** at USD 1.2m were broadly made up of USD 1.0m in salary costs and USD 0.2m in travel costs.
- The costs of the **Board meetings** of USD 0.5m were broadly made up of USD 0.2m in salary costs, USD 0.15m in translation costs and USD 0.15m in travel costs. It included the cost of the Board Meetings in Lima, Oslo and Astana. Translation and interpretation costs were more than halved compared to 2015.
- **Communication costs** of USD 0.6m mainly related to updates and improvements to the EITI website including the implementers portal, the Progress Report and the extractives data portal project (EDP).
- **Training costs** of USD 0.3m were below budget as funding for training, other than staff related costs, was only received towards the end of the year.
- Management and admin costs of USD 0.7m were affected by increased office expenses including unsubsidised (but below market rate) rent.

Validation costs of USD 0.5m reflect the more cost efficient model agreed by the Board of having the Secretariat undertake the information gathering activities towards validations.

7th Global Conference 2016 – Lima, Peru

The 7th EITI Global Conference 24-25 February in Lima was attended by almost 1200 delegates from around 100 countries.

With the theme "Reports to Results", the conference focused on how the EITI is leading to change in the 50+ implementing countries. During the conference, implementing countries participated in the EITI National Expo, where each country had a stand demonstrating progress and communications materials from their implementation.

Important events included the agreement and launch of the <u>revised EITI Standard</u>, the <u>launch of the 2016</u> EITI Progress Report, the acceptance of two new Candidate countries (the Dominican Republic and Germany), and the appointment of the international EITI Board 2016-19, including the new Chair, Fredrik Reinfeldt.

The conference was organised in collaboration with the Ministry of Energy and Mines of Peru, and with support from BHP Billiton, Chevron, the governments of Canada, Germany and the United Kingdom, the European Commission, Freeport McMoRan, the Inter-American Development Bank, The International Monetary Fund, the Omidyar Network, and the World Bank. The financial result for the conference is shown in table 6 below.

5 Balance Sheet and cashflow statement as per 31 December

The accounts were based on an accruals basis for the second year in 2016. As a consequence of using the accruals principle, a balance sheet and a cashflow statement is presented to give a comprehensive financial overview.

"Accounts receivable" of USD 0.1m consist of committed funding from Belgium francophone training that has been received in Q1 2017. "Other receivables" of USD 0.1m consist of prepaid costs for insurance and rent in addition to Global Conference costs. "Public duties payable" of USD 0.2m consist of employer's tax and staff salary tax. "Other short term payables" of USD 1.4m consist of holiday pay³ of USD 0.2m, USD 0.1m in Q4 invoices, USD 0.5m received in 2017 general funding and USD 0.6m in funding towards beneficial ownership and commodity trading activities. The negligible "currency translation costs" are a result of converting the equity in NOK to USD at a similar rate on 31 December 2016 compared to on 31 December 2015.

As a result of the positive result in 2016, total equity has increased to USD 0.6m, equal to the reserve.

³ The Norwegian system for holiday pay entails accruing approximately one month of salary and paying it out in the following year.

Table 7: Balance Sheet as per 31 December 2016

6 Conclusion

2016 was a challenging financial year for the EITI. Despite an approved budget of USD 7.7m including the global conference and validations, significantly lower funding was received and much towards the end of the year. Planning and delivery of activities therefore become challenging. The mandate and tasks given by the Board to the Secretariat has not been matched by funding.

7 Forward Look: Foreseen activities for Q1 2017

The main activities foreseen in the first quarter of 2017 include:

- 1. Beneficial ownership disclosure activities across several regions to develop roadmaps and capacity building funded by DFID.
- 2. Commodity trading transparency pilots funded by DFID and SECO.
- 3. Six validations. The costs are expected to be around USD 65,000 per validation including Secretariat costs and staff time of which USD 10,000 is funded by the World Bank grant.

- 4. Board meeting in Bogota, Colombia.
- 5. Commence a lengthy recruitment process for new staff, including replacement of two outgoing staff. Staff are unlikely to be in place before Q3.

With the present funding challenges short term liquidity will be monitored closely. Please see below an overview of forecasted liquidity for the first quarter 2017:

Cash balance 6 February: USD 2.0 m (including reserve)

Project specific expenditure: USD - 0.5m Normal Sec costs Jan-March USD - 0.9m Expected contributions up to 31 March USD 0.5m

Cash balance 31 March USD 1.1m (including reserve)

The result for Q1 2017 is forecasted to be slightly positive with revenues and costs of USD 1.7m including the project specific activities. USD 1.2m in contributions have been received as of 6 February. It should, however, be noted, that the Secretariat tends to receive a good part of its annual funding in Q1 whilst the expenditure is fairly flat throughout the year.
