INDEPENDENT AUDITORS' REPORT TO GOVERNMENT OF IRAQ AND COMMITTEE OF FINANCIAL EXPERTS OF THE DEVELOPMENT FUND FOR IRAQ AND SUCCESSOR ACCOUNT

Report on the financial statements

We have audited the accompanying statement of cash receipts and payments and the statement of proceeds of oil export sales ("the financial statements") of the Development Fund for Iraq and successor account ("DFI") for the year ended 31 December 2015, and a summary of significant accounting policies and other explanatory information.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Public Sector Accounting Standard "Financial Reporting Under the Cash Basis of Accounting" and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

Basis for Qualified Opinion

1. As explained in note (4) to the financial statements, the Ministry of Oil did not receive production reports from Kurdistan region during the year ended 31 December 2015. The Ministry of Oil received reports, which included only the quantities pumped in the pipelines. We were not able to satisfy ourselves regarding the produced oil quantities during the year 2015 in Kurdistan region.
2. As explained in note (5) to the financial statements, according to the UNSCR 1483 (2003), all member states of the UN in which there are funds or other financial assets or economic resources (collectively referred to as 'the frozen funds ') of the previous Government of Iraq or its state bodies, corporations, or agencies, located outside Iraq as of the resolution date shall freeze the frozen funds. The frozen funds of the former Iraqi regime are still held by various member states, which the Government of Iraq is actively pursuing. The Government of Iraq cannot reliably

estimate the amount of the frozen funds that may eventually be transferred to the DFI, as some of these frozen funds are subject to prior judicial, administrative or arbitral lien or judgment. During the year ended 31 December 2015 the Central Bank of Iraq (CBI) did not receive any amounts related to frozen funds. As a result, as noted in Note 5 to the financial statements, we were unable to determine whether all proceeds from the frozen funds have been received by DFI or any proceeds have also been remitted to other Government bodies.

Qualified Opinion

In our opinion, except for the effects of such adjustments, if any, as might have been determined to be necessary had we been able to satisfy ourselves in respect of the matters referred to in the preceding paragraphs, the financial statements of DFI for the year ended 31 December 2015 are prepared, in all material respects, in accordance with the International Public Sector Accounting Standard (IPSAS) "Financial Reporting under the Cash Basis of Accounting".

Emphasis of matters

1. Without further modifying our opinion, we draw attention to note (4), where crude oil shipments lifted by the international oil companies during the year ended 31 December 2015 (in accordance with their service contracts) were not included as part of total export sales of petroleum in the statement of proceeds of oil export sales. These lifted quantities were not collected in cash and were not deposited at the Oil Proceeds Receipt Account (OPRA) during the year ended 31 December 2015. A committee was formed which was chaired by the Ministry of Finance and membership of Central Bank of Iraq and Ministry of Oil to decide on the suitable mechanism to ensure the payment of amounts due to OPRA in respect of the crude oil shipments lifted by the international oil companies. The Committee resolved that the Central Bank of Iraq is to transfer the full value of oil lifted to OPRA. The total value of oil exports by international oil companies amounted to U.S. \$ 13.60 billion during the year ended 31 December 2015 (31 December 2014: U.S. \$ 13.14 billion). During the year ended 31 December 2015 the Central Bank of Iraq transferred an amount of U.S. \$ 5.70 billion (31 December 2014: U.S. \$ 11.75 billion) to OPRA against the value of in-kind oil lifted by international oil companies during 2015 and previous years.
2. The Ministry of Oil started in the year 2008 a project to operate a full operational loading and metering system. The status for the installation of a comprehensive oil metering system in Iraq in accordance with standard oil industry practices as at 31 December 2015 was 100% (31 December 2014: 100%) for the fiscal settlement which measures quantities of crude oil and petroleum products delivered to or received from the oil companies or transferred between the oil companies and other companies outside the oil sector or the quantities exported through the ports of export, and 93% (31 December 2014: 90%) for the internal custody transfer for the measurement of quantities of crude oil and petroleum products transferred or consumed within the same oil company and which do not have financial impact between companies. During 2012, the Ministry of Oil prepared an additional plan for 2013 and 2014 for the entry borders that has been established for the development operations in the oil sector, the completion rate was 84% as of 31 December 2015 for the purpose of the fiscal settlement (31 December 2014: 60%) and 19% as at 31 December 2015 for the purpose of internal transportation (31 December 2014: 18%).

Other matters

Basis of preparation

Without further modifying our opinion, we draw attention to Note 2 to the financial statements; which describes the basis of preparation in accordance with the International Public Sector Accounting Standard (IPSAS) (Financial Reporting under the Cash Basis of Accounting).

Restriction on use

Our report is intended solely for the information and use of the Government of Iraq and the Committee of Financial Experts and should not be distributed to any other parties or used for any other purpose. 1. GENERAL

The United Nation Security Council Resolution (UNSCR) 1483 (2003), which was adopted by the Security Council on 22 May 2003, has called for the creation of the Development Fund for Iraq (DFI) to administer proceeds from all the export sales of petroleum and petroleum products in Iraq, remaining funds from Oil for Food Program, and proceeds from frozen assets seized from the previous regime. The DFI was placed under the control of the former Coalition Provisional Authority (CPA).

UNSCR 1483 also called for the creation of an International Advisory Monitoring Board (IAMB), to promote transparency and financial accountability of the DFI.

Under UNSCR 1546, the Security Council and the CPA order number 100 dissolved the CPA and transferred control to Interim Government of Iraq on 28 June 2004 and subsequently to the Transitional Government of Iraq and currently to the Government of Iraq.

The DFI consists of bank accounts held with the Federal Reserve Bank of New York (FRBNY) and managed by the Central Bank of Iraq (CBI) on behalf of the Iraqi Ministry of Finance (MoF) as well as MoF's successor account # 300600 at the CBI. A DFI sub-account was established at the FRBNY to be managed by the U.S. Agencies and monitored by the Iraqi MoF. The Purpose of this sub-account is to facilitate disbursements for contracts signed by the former CPA requiring payment subsequent to 28 June 2004.

The U.S. Agencies include the JCC-I, PCO, IRMO, the JASG Comptroller, the DFI Disbursing Office, the Defense Contract Management Agency, the U.S. Army Corps of Engineers and Coalition Forces. U.S. Agencies management of the DFI sub-account expired on 31 December 2006.

The DFI sub-account is closed at 10 July 2014 and its balance transferred to MoF's successor account # 300600 at the CBI.

In accordance with UNSCR 1483 (2003), 95% of the proceeds from export sales of petroleum, petroleum products and natural gas from Iraq are to be deposited in the DFI. Furthermore, all Member States are obligated to freeze and transfer funds and other financial assets of the former Iraqi regime to the DFI. In addition, surplus funds from the Oil for Food program, established by UNSCR 986 (1995), are to be transferred to the DFI.

The Republic of Iraq's Council of Ministers resolved in its twenty third meeting held on 19 October 2006 to form Committee of Financial Experts (COFE) to take over the tasks of the IAMB in monitoring the DFI upon the termination of the IAMB by 31 December 2007. COFE is headed by the president of the Board of Supreme Audit (BSA) and membership of two independent experts. COFE is responsible directly to the Council of Ministries.

The Republic of Iraq's Council of Ministers decided in their resolution number 82 of the year 2014 dated 18 November 2014 to extend the duties of Mr. Abdul Basit Turki Saeed in chairing the COFE till finalizing the works of the Committee of Compensation Fund.

The UNSCR 1905 (2009) extended on the arrangements established in paragraph 20 of resolution 1483 (2003) for the depositing into the DFI of proceeds from export sales of petroleum and petroleum products and the arrangements referred to in paragraph 12 of resolution 1483 (2003) and paragraph 24 of resolution 1546 (2004) for the monitoring of the DFI by the IAMB and further decided that, subject to the exception provided for in paragraph 27 of UNSCR 1546 (2004), the provisions of paragraph 22 of UNSCR 1483 (2003) shall continue to apply until 31 December 2010, including with respect to funds and financial assets and economic resources described in paragraph 23.

The UNSCR 1956 (2010) also affirmed that the requirement established in paragraph 21 of UNSCR 1483 (2003) that 5% of the proceeds from all export sales of petroleum, petroleum products and natural gas shall be deposited into the Compensation Fund established in accordance with resolution 687 (1991) shall continue to apply.

The UNSCR 1956 (2010) extended on the arrangements mentioned in the previous paragraph until 30 June 2011.

On 30 June 2011, the COFE took over the tasks of the IAMB in monitoring the DFI.

On 27 May 2014, the president of the United States has issued a ruling to stop the American protection on the Iraqi development fund, as a result the Iraqi government has set a new mechanism to transfer the oil revenues on a daily basis from OPRA to the Central Bank of Iraq account 2 in the Federal Reserve Bank of New York, and thereafter transfer the amounts deposited in the Central Bank of Iraq account 2 to the Ministry of Finance U.S. \$ account at the Central Bank of Iraq (Successor account number is 300600).

17. COMMITMENTS AND CONTINGENCIES

Contractual commitments consist of open contracts, signed by the former CPA and administered by the U.S. Agencies. Contractual commitments entered into by the Iraqi ministries are considered to be committed through the Iraqi budget, and are not directly committed through the DFI.

The former CPA did not maintain complete accounting records in respect of contractual commitments entered into by U.S. Agencies for the period from inception to 28 June 2004.

On 11 December 2006, the U.S. Agencies submitted the contracts files and other supporting documents of the former CPA and the U.S. Agencies to the BSA. According to the BSA letter dated 25 February 2007, the BSA informed the U.S. Agencies that they found financial and legislative violations, which lead the BSA to review all the submitted documents and the Iraqi entities retained their right to request compensation for any financial damage to the Iraqi budget due to any financial or administrative actions taken by the U.S. Agencies during the execution of the contracts. In September 2007, the Joint Contracting Command - Iraq was granted interim authority by the Ministry of Finance to disburse the remaining funds from the DFI sub account. On 31 December 2007, this authority was expired and not renewed. The Ministry of Finance was not provided with sufficient data to be able to assess the outstanding contractual commitments balance.

18. IMMUNITY

In accordance with UNSCR 1483 (2003), certain Member States have taken legal steps, as considered necessary, to ensure immunity of the petroleum and petroleum products originating in Iraq, until title passes to the initial purchaser, from legal proceedings against them so as not to be subject to any form of prior judicial, administrative or arbitral lien or judgment. In accordance with UNSCR 1956 (2010), it was decided to extend the above mentioned arrangements until 30 June 2011. On 17 May 2013, the president of the United State of America (President Obama) issued a decision to continue the American protection of the Development Fund for Iraq starting from 22 May 2013 and for one year.
