

2019 EITI Standard

What's new on gender?

In February 2019, the EITI Board agreed to changes to the EITI Standard, including new requirements on gender

Participation of women and marginalised groups is key to a well-managed extractive sector

Gender

In the 2019 Standard

Multi-stakeholder groups are required to consider gender balance in their representation

Requirement 1.4

Reporting requires employment figures disaggregated by gender, project and role, where available

Requirement 6.3

Multi-stakeholder groups are required to consider access challenges and information needs of different genders and sub-groups

Requirement 7.1

Multi-stakeholder groups are encouraged to document how they improved gender equality and social inclusion

Requirement 7.4
